EVENT MANAGEMENT & PRODUCTION

Event Strategies, Inc. (ESI)

The National Conservatism Conference brings together public figures, journalists, scholars, and students who understand that the past and future of conservatism are inextricably tied to the idea of the nation, to the principle of national independence, and to the revival of the unique national traditions that alone have the power to bind a people together and bring about their flourishing.

We see the rich tradition of national conservative thought as an intellectually serious alternative to the excesses of purist libertarianism, and in stark opposition to political theories grounded in race.

For information about future events and activities, please visit us at burke.foundation and sign up to join our mailing list.
